

## Membrane Filtration Media

Hach's membrane filtration (MF) media is formulated specifically for use with membrane filtration methods, though some may be usable in other scenarios. The innovative mColiBlue24 broth and total prepared media (simultaneous results for total coliforms and *E. coli*), other prepared agar plates, broths in tubes, bottles, and ampules are all available. Media types include m-TGE, m-FC m-Endo, m-TEC, brilliant green, m-Green, A-1, m-HPC, nutrients w/MUG, R2A, tryptic soy, and others. Applications include drinking water, wastewater, beverage, surface, ground, and well water.
