

Liquid MPN Media

Hach liquid MPN media (broth) is used for conducting the Most Probable Number (MPN) method of estimating the number of viable microbiological organisms in a sample matrix. Hach liquid MPN arrives in easy to use, individually-packaged glass tubes.

Part Number	Product description	Material	Platform	Quantity	Platform	GBP Price
2560915	A-1 Medium Broth MPN Tubes, pk/15	Glass		15 /pk		Contact Us
2162315	Lauryl tryptose 1X broth, pk/15	Glass		15 /pk		Contact Us
2101415	Lauryl Tryptose Broth MPN Tubes, concentrated, pk/15	Glass		15 /pk		Contact Us
1410415	MPN tubes, EC medium, PK/15	Glass		15 /pk		Contact Us
32215	Brilliant Green Bile broth tubes, pk/15	Glass		15 15/pk		Contact Us
