

Polymetron 9525 Degassed Cation Conductivity System

An integral part of the most complete water analytics system for the Power industry. Hach provides a broad range of product options designed to work together into flexible solutions to meet your unique needs. Hach's comprehensive approach saves you time on design, installation, training, maintenance, and operation.

Our degassed conductivity system measures conductivity following the removal of CO₂ gas from the sample stream, and can be coupled with the Polymetron 9523 conductivity system to measure specific (SC), cation (CC), and degassed conductivity (DCC) in a single integrated system.

Part Number	Power requirements (Voltage)	Includes 9523 sc	GBP Price
9525.99.0020	100 - 240 V AC	No	Contact Us
9525.99.20CC	100 - 240 V AC	Yes	Contact Us
